

## MY REFERENCE LIBRARY

*"Knowledge is of two kinds. We know a subject ourselves, or we know where we can find information upon it." -Samuel Johnson*

These following is a partial list of books, booklets, DVDs and Videos reference materials that I use, or loan to clients, on a regular basis. There is also a partial list of some of the articles and studies I have obtained in reference to my work and a list of some of the continuing education seminars I have taken. Last, but not least, I constantly browse Google Scholar and the Internet and subscribe to various journal services to find new articles and studies related to pet behavior (normal and abnormal) and training.
